Informed Consent to Chiropractic Treatment

The nature of chiropractic treatment: The doctor will use his/her hands or a mechanical device in order to move your joints. You may feel a "click" or "pop," such as the noise when a knuckle is "cracked," and you may feel movement of the joint. Various ancillary procedures, such as hot or cold packs, electric muscle stimulation, therapeutic ultrasound or dry hydrotherapy may also be used.

Possible Risks: As with any health care procedure, complications are possible following chiropractic manipulation. Complications could include fractures of bone, muscular strain, ligamentous sprain, dislocations of joints, or injury to intervertebral discs, nerves, or spinal cord. Cerebrovascular injury or stroke could occur upon severe injury to arteries of the neck. A minority of patients may notice stiffness or soreness after the first few days of treatment. The ancillary procedures could produce skin irritation, burns or minor complications.

Probability of risks occurring: The risks of complications due to chiropractic treatment have been described as "rare," about as often as complications are seen from the taking of a single aspirin tablet. The risk of cerebrovascular injury or stroke has been estimated at one in a million to one in twenty million, and can be even further reduced by screening procedures. The probability of adverse reaction due to ancillary procedures is also considered "rare."

Risks of remaining untreated: Delay of treatment allows formation of adhesions, scar tissue, and other degenerative changes. These changes can further reduce skeletal mobility, and induce chronic pain cycles. It is quite probable that delay of treatment will complicate the condition and make further rehabilitation more difficult.

Dr. Gray history: If you have any fears or concerns, please speak with me directly. With my 13+ years of chiropractic experience there has never been ANY incident of serious harm or injury. Chiropractic when done precisely is the safest form of healthcare.

I have read the explanation above. I have had the opportunity to have any questions answered to my satisfaction. I have fully evaluated the risks and benefits of undergoing treatment. I have decided to undergo the treatment and hereby give my full consent.

Please check which one applies to you

Typically, no insurance coverage is 100%, but if you have any benefits for chiropractic coverage for our office, we certainly will do everything we can to help your out of pocket expenses be as low as possible.

O **No Insurance:** Easy! Our care plans and simple payment plans have helped over thousands of people and will work great for you too!

O **Health Insurance / HSA:** Many insurances today pay very little or limited amounts for natural drugless care to get you healthy. We make it easy! We verify any benefits you have and file these claims directly to your insurance company. You are responsible for any deductibles, co-pays, co-insurance, and unpaid visits. For your convenience, all payment arrangements are made in advance.

O **Auto Injury:** Auto accidents are typically covered at 100%, even if you were at fault, not at fault, or were a passenger. You can get the care you need and it costs nothing. Great for you! All we need is a claim #, insurance information, and / or your attorney's information.

O **Work Injury:** Work injuries are covered 100% for between 12-24 visits. All we need is your claim # and worker's comp information.

O **Medicare:** Regardless of your condition, Medicare pays for a maximum of 12 weeks of care. They have strict rules and limitations and do NOT cover all office services. When benefits are exhausted, you are eligible for a significant discount.

O **VA (Veteran's Administration)**: We love helping our veterans. You will need a direct referral and authorization. Typically, 12 total visits are allowed per year. Certainly, this helps cover the cost of some of your initial care! VA does not cover all of our services.

These restrictions do not include the normal interchange of information necessary to provide you with office services. HIPPA provides certain rights and protections to you as the patient. We balance these needs with our goal of providing you with quality professional service and care. Patient files may be stored in open file racks and will not contain any coding which identifies a patient's condition or information which is not already a matter of public record. The normal course of providing care means that such records may be left, at least temporarily, in administrative areas such as the front office, examination room, etc. Those records will not be available to persons other than office staff. You agree to the normal procedures utilized within the office for the handling of charts, patient records, PHI, and other documents or information.

We may send you other communications informing you of changes to office policy and new technology that you might find valuable or informative.

3. The practice utilizes a number of vendors in the conduct of business. These vendors may have access to PHI but must agree to abide by the confidentiality rules of HIPPA.

4. You understand and agree to inspections of the office and review of documents which may include PHI by government agencies or insurance payors in normal performance of their duties.

5. You agree to bring any concerns or complaints regarding privacy to the attention of the office manager or the doctor.
